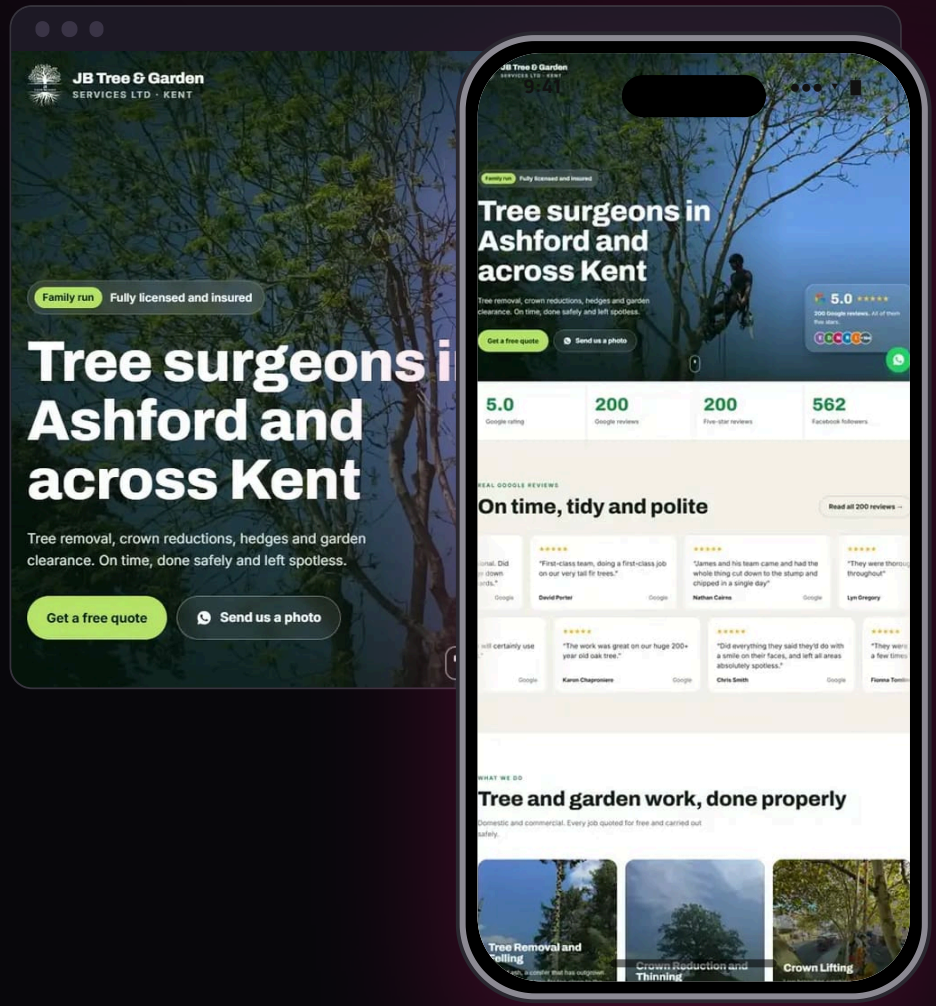
WEBSITES FOR TREE SURGEONS

Win the storm call and the big job.

A short guide for tree surgeons: how customers search, the pages you need and what we built for JB Tree and Garden Services.

- Tree removal
- Crown reduction
- Stump grinding
- Storm damage
- Area pages



HOW CUSTOMERS FIND YOU NOW

A tree job means chainsaws in the garden. People check first.

A branch came down in last night's wind. Next door wants three oaks reduced before spring and is comparing quotes. Your site has to win both.

1

Can you come out today?

Tap to call and WhatsApp at the top of every page, on a page that loads before they give up.

2

What will it cost?

A send-a-photo button so you can price from a picture, plus a page for each service.

3

Are you careful and insured?

Insurance and qualifications up front with videos of your own crew at work.

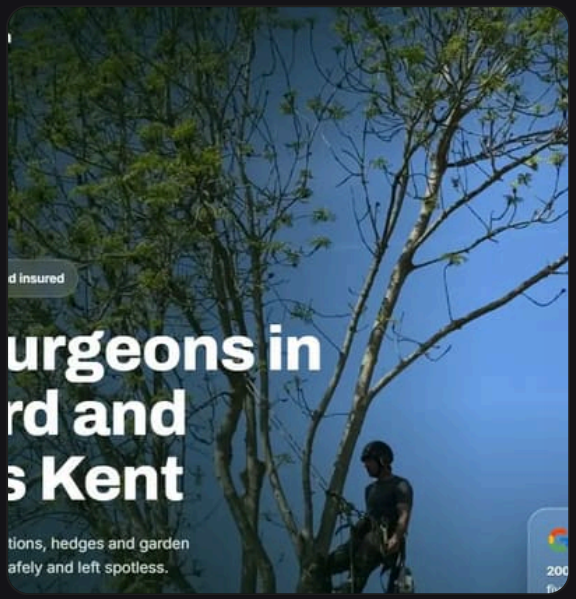
4

Can AI tools name you?

ChatGPT and Google's AI answers read clear service and area pages. Vague sites get skipped.

HOW WE KNOW YOUR TRADE

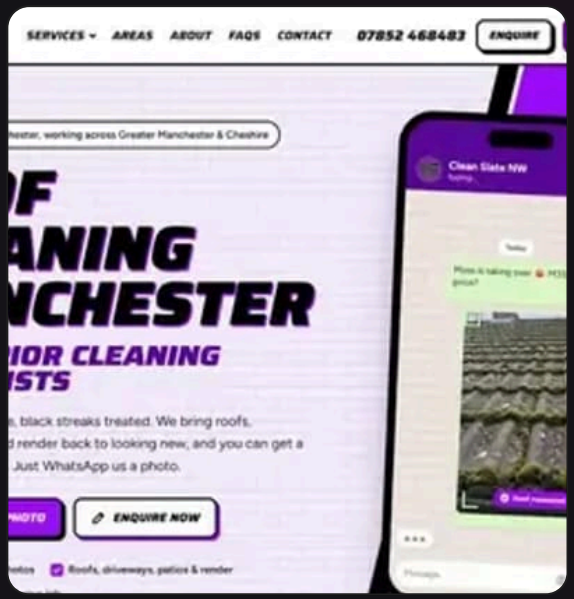
We build for tree surgeons already.



JB Tree and Garden Services

Tree surgeons, Ashford, Kent

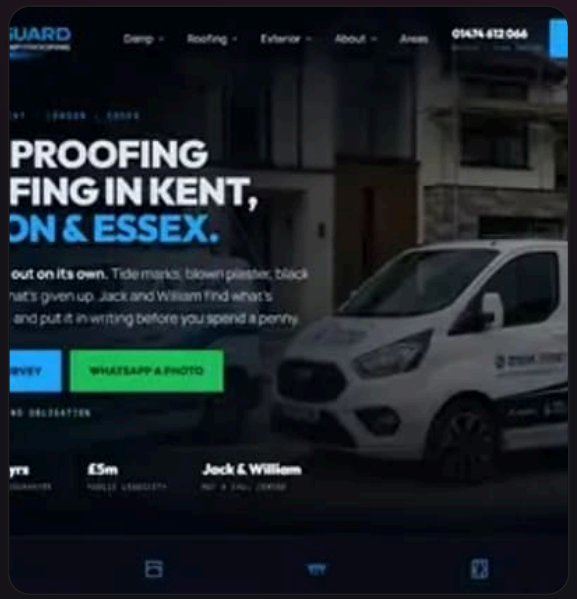
38 pages with 12 service pages, 14 area pages and 6 project pages.



Clean Slate Exteriors North-West

Roof and exterior cleaning, Greater Manchester

A 26 page site with 11 roof cleaning location pages, from brand to live in under two weeks.



Aqua Guard Roofing and Damp Proofing

Gravesend, Kent

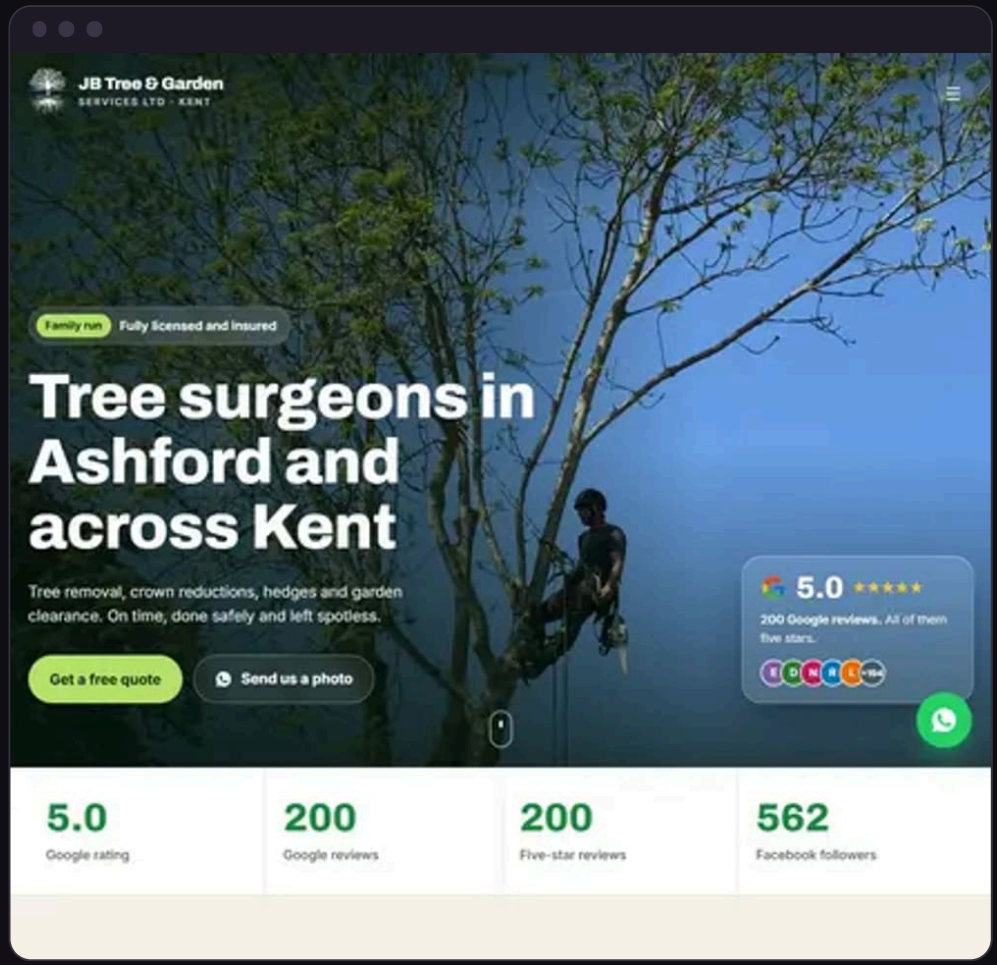
Rebuilt as a 24 page site with three Kent location pages.

WHAT WE BUILD

The pages a tree surgeon site needs.

You write nothing. We write it, you read it and nothing goes live until you are happy.

- **Send us a photo of your tree** with a WhatsApp chat right on the page.
- **A page per service:** tree removal, crown reduction, hedge trimming, stump grinding and clearance.
- **Your own videos** from your phone in a reel-style carousel, never stock.
- **Real reviews on every page** with a link to all of them.
- **A page per area** for the towns you really cover.
- **Taps you can count** because phone, WhatsApp, email and form sends are all tracked.



NEED IT SOONER?

Need it sooner? We can design and go live faster.

Storms and fallen branches make people search that same day, so the site that is already live is the one they ring. Most sites go live in 5 to 10 working days. When you need it quicker, tell us and we will move faster.

JB Tree: 38 pages, every service and area.

38

pages on JB Tree's new site

14
